[INFO] Tests run: 3, Failures: 0, Errors: 0, Skipped: 0, Time elapsed: 3.353 s -- in com.api.wildan.APITest
[INFO] Running com.qa.automation.runner.CucumberUITest

Scenario: Successful Login                                      # src/test/resources/features/login.feature.feature:3
  Given I am on the login page                                 # com.qa.automation.stepdefinitions.LoginSteps.login_page()
  When I enter username "standard_user"                        # com.qa.automation.stepdefinitions.LoginSteps.enter_username(java.lang.String)
```

```
[INFO] Tests run: 3, Failures: 0, Errors: 0, Skipped: 0, Time elapsed: 3.353 s -- in com.api.wildan.APITest
[INFO] Running com.qa.automation.runner.CucumberUITest

Scenario: Successful Login                                          # src/test/resources/features/login.feature.feature:3
  Given I am on the login page                                     # com.qa.automation.stepdefinitions.LoginSteps.login_page()
  When I enter username "standard_user"                            # com.qa.automation.stepdefinitions.LoginSteps.enter_username(java.lang.String)
  And I enter password "secret_sauce"                              # com.qa.automation.stepdefinitions.LoginSteps.enter_password(java.lang.String)
  And I click the login button                                     # com.qa.automation.stepdefinitions.LoginSteps.click_login_button()
  Then I should be redirected to the products page                 # com.qa.automation.stepdefinitions.LoginSteps._products_page()
Item added to cart
  When I add a backpack to the cart                                # com.qa.automation.stepdefinitions.LoginSteps.add_item_to_cart()
Navigated to the cart
  And I click the cart icon                                        # com.qa.automation.stepdefinitions.LoginSteps.click_cart_icon()
Proceeding to checkout
  And I proceed to checkout                                        # com.qa.automation.stepdefinitions.LoginSteps.proceed_to_checkout()
  Then I should be redirected to the information page              # com.qa.automation.stepdefinitions.LoginSteps.information_page()
Entered First Name: Wildan
  And I enter first name "Wildan"                                  # com.qa.automation.stepdefinitions.LoginSteps.enter_first_name(java.lang.String)
Entered Last Name: Azman
  And I enter last name "Azman"                                    # com.qa.automation.stepdefinitions.LoginSteps.enter_last_name(java.lang.String)
Entered Postal Code: 43650
  And I enter postal code "43650"                                  # com.qa.automation.stepdefinitions.LoginSteps.enter_postal_code(java.lang.String)
Clicked Continue
  And I click continue                                             # com.qa.automation.stepdefinitions.LoginSteps.click_continue()
Currently on Checkout Step Two Page
  Then I should be on the checkout step two page                   # com.qa.automation.stepdefinitions.LoginSteps.checkout_step_two_page()
Clicked Finish
  When I click finish                                              # com.qa.automation.stepdefinitions.LoginSteps.click_finish()
Checkout Complete
  Then I should see the checkout complete page                     # com.qa.automation.stepdefinitions.LoginSteps.checkout_complete_page()

Scenario: Login with Locked Out User                                   # src/test/resources/features/login.feature.feature:21
  Given I am on the login page                                         # com.qa.automation.stepdefinitions.LoginSteps.login_page()
  When I enter username "locked_out_user"                              # com.qa.automation.stepdefinitions.LoginSteps.enter_username(java.lang.String)
  And I enter password "secret_sauce"                                  # com.qa.automation.stepdefinitions.LoginSteps.enter_password(java.lang.String)
  And I click the login button                                         # com.qa.automation.stepdefinitions.LoginSteps.click_login_button()
  Then I should see an error message "Epic sadface: Sorry, this user has been locked out." # com.qa.automation.stepdefinitions.LoginSteps.error_message(java.lang.String)

Scenario: Login with incorrect password                                    # src/test/resources/features/login.feature.feature:28
  Given I am on the login page                                             # com.qa.automation.stepdefinitions.LoginSteps.login_page()
  When I enter username "locked_out_user"                                  # com.qa.automation.stepdefinitions.LoginSteps.enter_username(java.lang.String)
  And I enter password "wrong_password"                                    # com.qa.automation.stepdefinitions.LoginSteps.enter_password(java.lang.String)
  And I click the login button                                             # com.qa.automation.stepdefinitions.LoginSteps.click_login_button()
  Then I should see an error message "Epic sadface: Username and password do not match any user in this service" # com.qa.automation.stepdefinitions.LoginSteps.error_message(java.lang.String)
